

SAFETY 1ST SWIVEL BATH SEAT

REPLACEMENT OF WARNING LABEL

STEP 1

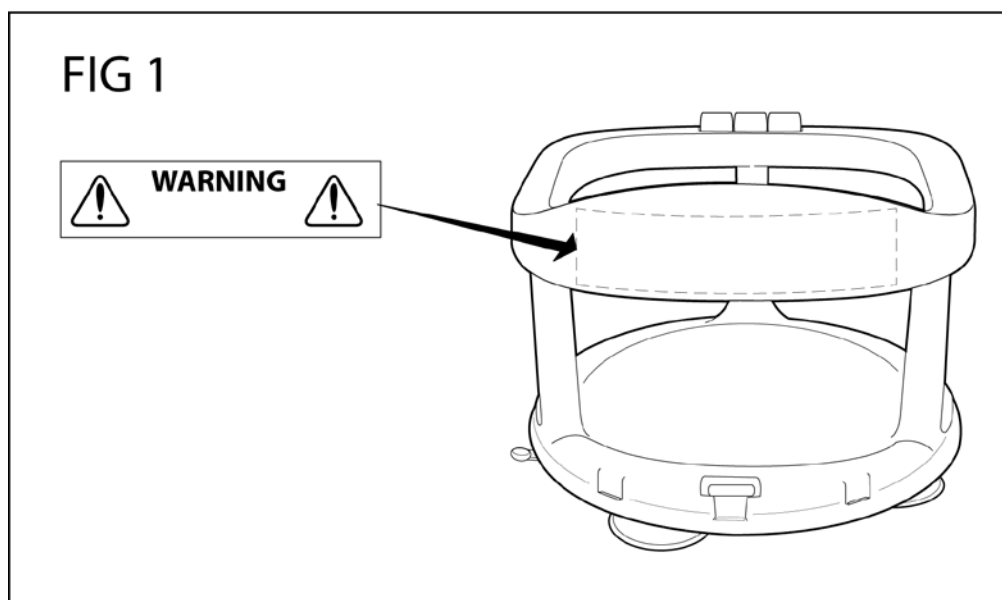

When you have the replacement label ready, carefully peel off the label attached to the bath seat and discard.

STEP 2

Thoroughly clean the surface where the label had been attached using a commercial cleaning agent to remove all remains of the glue from the old label.

STEP 3

Peel the backing off the new label and place it so that all of the label is attached to the flat portion of the bath seat rim, per FIG 1. Press down and ensure there are no bubbles under the label surface.
